

# Dxome

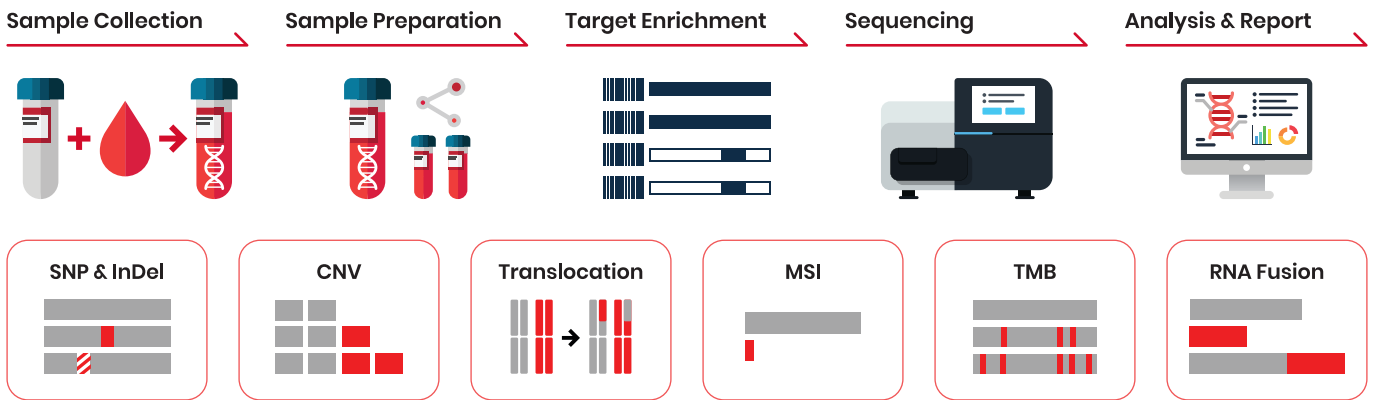

Improving Your Quality of Life  
& Living a healthy life With Dxome!

## Product of Dxome

With our proprietary technology, we created an optimized and simplified product that is easy to use and produces results with high sensitivity and accuracy. In addition, the product is an all-in-one product that includes necessary components to produce and amplified libraries of interest. The product also utilizes bioinformatics pipelines containing latest technology for precise data analysis and high-quality solutions.

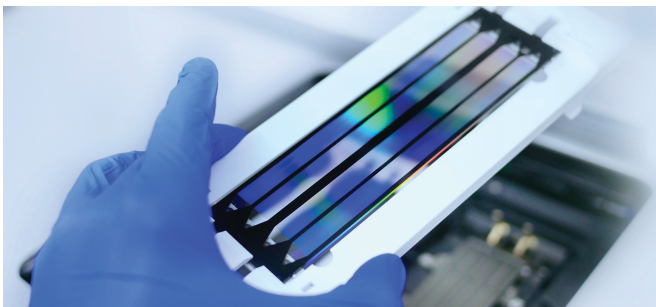

## DxLiquid Platform

### DxSeq

NGS analysis platform for genetic mutation analysis

### DxLiquid

Liquid biopsy(ctDNA) based NGS analysis platform for multiple tumors

### DxReal

Infectious and Human disease diagnostic kit for RT and multiplex PCR

### DxTube

A blood collection tube to stabilize cell-free DNA preservation
